

HAH ROUNDTABLE, OCTOBER 8, 2016

Pamela Harwood

Our fall Roundtable season got off to a very lively start. Thank you to our attendees, including Mike DeVito, Lesley Gray, Howard Harris, Ellen Johansen, Marie Di Monte, Ruth Fergason Richards, Peter Feder, Bob Luckey, Peter Dimsey and Virginia Dimsey, George Biercuk, Bettina Benson, and Elizabeth Walbrol. You all shared fabulous questions, answers, and suggestions. We covered such topics as the proper care of roses, suggested plantings for newly cleared spaces, wisteria that hasn't bloomed, when and how to prune climbing hydrangea and lagerstoeimia (crape myrtle), creating your own free mulch by shredding leaves, protection of small trees and shrubs from deer damage when they rub their antlers during fall and winter, fall garden clean up, and the need for continued watering until a hard frost, especially after such a dry August and September.

But since there might still be some time for planting now or planning for next year, following is one of the handouts I distributed to attendees. If you have any additions, please let me know!

PLANTS FOR THE FALL GARDEN

FALL FLOWERS

Aconitum (monkshood)	Crocus speciosus
Allium tuberosum (garlic chives)	Eupatorium rugosum "Chocolate"
Alstroemeria (Peruvian lily)	Eupatorium coelestium 'Wayside' (hardy ageratum)
Anemone 'Honorine Jobert'	Helenium (sneezeweed)
Aralia	Liriope muscari *
Aster 'Purple Dome' (deep purple with yellow center)	Montauk Daisy
Aster novi belgii (pale lilac with yellow center)	Rabdosia longituba (trumpet spurflower) *
Callicarpa (beautyberry) *	Physostegia virginiana (obedient plant) -self-seeds
Caryopteris x clandonensis (bluebeard) *	Plumbago
Chelone glabra (turtlehead)	Sedum spectabile (stonecrop)
Chrysanthemum	Solidago (goldenrod) *
Cimicifuga (snakeroot) *	Tricyrtis hirta (toad lily)
Clematis virginiana	
Clematis paniculata (sweet autumn clematis)	
Clematis texensis (small, bell-shaped flowers)	
Colchicum autumnale	

CONTINUES TO BLOOM INTO EARLY FALL

Buddleia (butterfly bush) * -self seeds	Helianthus (perennial sunflower)
Clerodendrum trichotomum*(harlequin glorybower)	Hibiscus syriacus Rose of Sharon -self seeds
Coreopsis (tickseed)*	Hydrangea paniculata
Dahlia	Lespedeza thunbergii
Eupatorium purpureum 'Little Red' (Joe Pye weed)	Perovskia (Russian sage) *
Gaura lindheimeri (Indian feather)	Vitex *
Geranium 'Rozanne'	

ORNAMENTAL GRASSES

Calamagrostis x acutiflora 'Karl Foerster'
Chasmanthium latifolium (northern sea oats) -self seeds unless clipped in late fall
Miscanthus -self seeds unless clipped in late fall
Pennisetum alopecuroides (fountain grass) -self seeds unless clipped in late fall

BERRIES AND DRUPES

Clerodendrum* -sapphire blue	Skimmia japonica -red
Berberis (barberry) * -red	Taxus (yew) -red drupes
Cornus kousa (dogwood) large, red drupes	
Ilex japonica -blue or black	
Ilex (holly) -red	

HAH ROUNDTABLE HANDOUT
OCTOBER 8, 2016
